● ABOUT MYSELF

Skilled Backend Developer with extensive experience in Laravel and PHP frameworks, specializing in API development, system integrations, and the design of scalable and intelligent software solutions. Demonstrated expertise in creating smart applications powered by AI technologies and prompt engineering, with a focus on optimizing application performance and automating complex workflows. Proven ability to enhance software stability through code refactoring and to deliver high-quality solutions tailored to client needs. Strong communicator with experience in collaborating with cross-functional teams and a passion for developing innovative, user-centric software. Currently seeking a challenging role to contribute my technical expertise and drive meaningful results in software development and project management.

● WORK EXPERIENCE

01/10/2022 – CURRENT Berlin, Germany

BACKEND DEVELOPER SWISS CONNECT ACADEMY DEUTSCHLAND GMBH

Developed and maintained a multi-language **employee analysis application** for organizations, focusing on analyzing **hard and soft skills**.

- Integrated **OpenAI** and **ESCO APIs** for intelligent features, including:
- Fetching job-related required and optional skills via **ESCO API**.
- Generating soft skills using **OpenAI** prompts with optimized request parallelization to prevent runtime errors and timeouts.
- Automating survey creation based on identified skills with detailed descriptions for both hard and soft skills.
- Recommending personalized training plans based on survey results using AI-powered analysis.
- Built a robust **AI API service** to handle **OpenAI** requests independently for efficient data generation.
- Worked on **LTI 1.3** integration for connecting to **LMS/LXP** platforms, enabling **OAuth 2.0 authentication** and seamless course recommendations for users.

03/2021 – 07/2022 Istanbul, Turkey

FULLSTACK DEVELOPER SAWTRU SMART MACHINE

Worked on an automation system for a packaging design process in a confectionery and nuts factory.

- Developed a multi-step approval process for packaging designs, allowing designers, group managers, and production managers to communicate, comment, and approve designs through a structured workflow.
- Implemented **ACL (Access Control List)** for **authentication** and **authorization**, ensuring proper role-based access control for different levels of users.
- Developed the frontend using **jQuery**, **HTML**, and **CSS** to create an intuitive and responsive user interface.
- Designed a timeline to track the design approval process, ensuring transparency and tracking of changes and comments during each Enabled managers to view only the designs of their respective team members, while production managers had access to all designs for approval.

01/2020 – 01/2021 Berlin, Germany

BACKEND DEVELOPER 4SOU RECRUITMENT SERVICE

Worked on a multilingual recruitment platform connecting job seekers and recruitment agents with companies looking for skilled employees.

- Played a key role in designing and implementing the database schema and backend logic.
- Proposed and implemented a unified user model for job seekers, agents, and admins using **RBAC** methodology for authentication and authorization.

- Coordinated API integration between frontend and backend teams, ensuring seamless communication and functionality.
- Led code review sessions, ensuring quality and consistency of backend code.
- Introduced mandatory **unit testing** and **Swagger-based documentation** for all developers, ensuring a standardized approach to API development and testing across the team.
- Developed RESTful APIs for various platform features, including user registration, profile management, and job application workflows.

01/2019 – 10/2019 Tehran, Iran
BACKEND DEVELOPER TURKAPP

Worked on backend development with **Laravel** and developed RESTful APIs.

02/2016 – 11/2018 Tehran, Iran
BACKEND DEVELOPER & DATABASE DESIGNER (CODEIGNITER) EIBAK, RECRUITMENT AGENCY

Worked as a backend developer and database designer using **CodeIgniter** framework.

06/2013 – 01/2016 Tehran, Iran
BACKEND DEVELOPER (CODEIGNITER) EXIR ASA ARA

Developed a tourism-related website using the **CodeIgniter** framework.

06/2024 – CURRENT Dresdan, Germany
FULL STACK DEVELOPER (BACKEND, FRONTEND, AI INTEGRATION) PERSONAL CMS PROJECT

Developed a modular CMS system that supports a wide range of website modules (e.g., eCommerce, News Services, Personal Profiles, Corporate Projects, Real Estate).

- Integrated **RBAC** using **spatie/laravel-permission** for user management and roles.
- Implemented **multilingual support** with easy language additions and dynamic content generation.
- Utilized **Polymorphism** for categories and tags in models for better organization and flexibility.
- Supported **EAV (Entity-Attribute-Value)** system for more dynamic and flexible data management.
- Integrated **RSS-based web crawler** to automatically fetch and categorize content for news articles.
- Developed **SEO-friendly content generation** powered by **OpenAI**, enabling users to automatically generate content on predefined schedules.
- Focused on **RESTful API** and **HTML-based UI** creation for client-specific customization.
- Ensured easy scalability for various website types and projects with an adaptable backend system.

● **EDUCATION AND TRAINING**

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY Web Designing in Tehran Information and Communication University of Applied Science and Technology

● **LANGUAGE SKILLS**

Mother tongue(s): **PERSIAN**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	C1
GERMAN	A2	A2	A2	A2	A2

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

● **DIGITAL SKILLS**

Backend Development

Laravel | Codeigniter | Design patterns, SOLID design

Relational Databases

MySql-MariaDB

Frontend Development

Web Technologies Fundamentals - HTML, CSS | Bootstrap | Javascript | JQuery (AJAX)

Cloud and storages

DigitalOcean | Minio S3

Version Control, Collaboration & Containerization

Git,Github,& Gitlab | Agile-Scrum | Jira | Docker

Testing, Debuging & Documentation

PhpUnit | Postman | Sentry.io | OpenAPI/Swagger

Familiar with

Backend Development : Symfony | React.js | Vue.js | Type Script | Tailwind css | RabbitMQ

Open AI

OpenAI Platform | Prompt engineering
