WORK EXPERIENCE

PHP Developer

4Sou Recruitment Service [01/2021 – 01/2022]

City: Terhan

Country: Iran

I was working on an international Recruitment Service based in Berlin as a Senior back-end developer. It had different types of users such as Employees, Employers, and Recruiters in multiple languages.

My responsibilities :

- Analyze and design database
- Writing clean and maintainable codes
- Working with Laravel, Mysql, Swagger
- Other back-end team code review and merge on GitLab
- Config the Server and deploy the project on it.
- Writing unit tests using Laravel PHPUnit
- Using tools like Jira, Linux, and Git on a daily basis

Achievements:

- Implementation and design of a multiple-user system with RBAC methodology for authorization and JWT authentication
- Normalization and design of a best practice relational database
- Providing suitable solutions for codes management using packaging modules

- Using Twilio SMS Service for notification services
- Optimization of website business plan

Tech Stack: Laravel, MySQL, REST APIs, Swagger API

PHP developer

TURKAPP [01/2020 – 10/2020]

City: Tehran

Country: Iran

I worked on a microservices super application, It has a lot of features and services such as B2B, B2C, C2C, public transportation service, and Tabriz Tracktorsazi football team fan club.

My responsibilities :

- Implementation of user's service in RBAC methodology
- Developing notification service using Rabbitmq as a message broker
- Developing and debugging B2B service
- Using Minio as a cloud storage service

Achievements:

- Improving the speed of users authentication and authorization using the Redis cache system

Tech Stack: Laravel Lumen, Microservices, MariaDB, REST APIs, Swagger API, RabbitMQ, Redis, Minio

PHP Developer

Eibak, Recruitment Agency [02/2017 – 08/2020]

City: Tehran

Country: Iran

I was working on 3 Recruitment websites and more than 10 C2C projects about luxury items, livestock, learning services, and so on.

My responsibilities:

- Analyze and design database
- Writing clean and maintainable codes
- Working with Laravel, Codeigniter, Mysql, and JQuery
- Developing payment service using Bank's web services

Achievements:

- Create a dedicated Content Management System
- Normalization and design of a best practice relational database
- Implementation of best-performance search engine
- Using SMS Service for notification services

Tech Stack: Laravel, CodeIgniter, MySQL, AJAX, REST APIs

PHP Developer

Exir Asa Ara [06/2013 – 01/2017]

City: Tehran

Country: Iran

I worked for an encyclopedia website about Iran's tourism industry. This website included all of the information about cities and tourist places in Iran.

My responsibilities:

- Analyze and design database
- Writing clean and maintainable codes

- Working with Codeigniter, Mysql, JQuery, XML, AJAX, Html, CSS

Achievements:

- Create a dedicated Content Management System
- Implementation of multiple post categories for a best practice post suggestion
- Improving 50% the speed of search engines using XML instead of relational database

Tech Stack: Codeigniter, MySQL, jQuery, AJAX, HTML, Cascading Style Sheets (CSS)
